

50 year CERTIFICATES

The Volunteer Fire Police Association State of New York is now offering a certificate of service for member of the state association, and the fire service that have completed 50 year or more years of service with five year as an active fire police.

We will need the following information, A Letter of recommendation from his/her respective/company's fire chief, citing the accomplishments to the fire service. This letter to be sent to the appropriate region director.

Each candidate will receive a certificate of service. The regional director will present the certificate at the recipient's fire station, at a scheduled event to recognize her/his's time spent in the fire service and all that her/his's time spent in the fire service, and that he/she has done to improve the level of the fire service support. Future requirements will be done on a ten years interval using the same format.

A list of Regional Directors may be found in the VFPASNY newspaper, and on the web-site VFPASNY.com
